PROFIBUS/PROFINET Seminar Manila!

PI-Southeast Asia as one of the Mainsponsors for the IATEX Expo in Manila!

The Seminar is spread in three parts: news and market updates with the latest numbers on installed nodes with PROFIBUS/PROFINET Technology; a PROFIBUS Block with presentations on Installations and Best Practises and a PROFINET Block with presentations on innovative Industrial Ethernet Solutions as well as the new features which are available in the Automation Market such as Redundancy, Shared Device and many more.

Successful Seminars in
Malaysia and Singapore 2011!

The PROFIBUS/PROFINET Association South East Asia successfully conducted two Seminars for the year in Malaysia and Singapore.
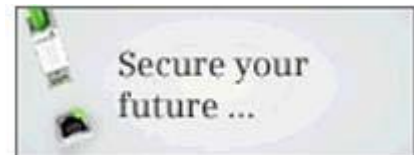

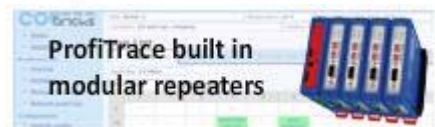

The two events took place in Singapore, Jurong Island Trainingscenter and Kuala Lumpur at the Sunway Resort and Spa Hotel. A total of 160 participants were present at these two events.

Largest global PI Meeting ever!

Beginning of June 2011 the 23rd PI Meeting took place in Lucerne (Switzerland). The yearly PI Meetings serve the exchange and transfer of know-how amongst the Regional PROFIBUS & PROFINET Associations word-wide. At the same time the PI Competence Centers (PICCs) as well as the PI Training Centers (PITCs) and the PI Test Labs (PITLs) met in Lucerne. They provide technical support and quality assurance with respect to technology and training. With more than 120 participants this was the largest meeting since the founding of the PI organization in 1995. Definitely a proof of the constantly growing interest in PROFIBUS, PROFINET and the world-wide operating PI organizations.

New counting on PROFIBUS/PROFINET Devices released!

In 2010 nearly twice as many PROFINET devices were installed as in the previous year. The numbers of PROFIBUS and PROFIsafe devices have also increased significantly over the previous year. This further extends the market leadership of the PI (PROFIBUS & PROFINET International) with respect to PROFINET, PROFIsafe, and PROFIBUS.
