

The PROFIBUS/PROFINET Association South East Asia successfully conducted the kick-off Seminars for the year in Vietnam.

The two events took place at the Intercontinental Hotel in Ho Chi Minh City and at the Hilton Hotel in Hanoi. A total of 250 participants took part in these events.

These seminars were supported by Siemens, Pepperl + Fuchs, Link Vue, Phoenix Contact, Leoni and Belden. These companies provided live demonstrations to showcase innovative Products and Solutions at the Micro fair.

The Seminar was spread in three parts: new and market updates with the latest number on installed nodes with PROFIBUS/PROFINET Technology; a PROFIBUS Block with presentations on Installations and Best Practice and a PROFINET Block with presentations on innovative Industrial Ethernet Solutions as well as the new features which are available in the Automation Market such as Redundancy, Shared Device and many more.

Thanks to the strong local Vietnamese Support, the presentations were done in English and Vietnamese, which presented additional value to the Seminar Participants.

As this was just the beginning of a series of seminars planned for this year, more locations will follow in Singapore, Malaysia, Philippines, Indonesia and Thailand. The President of the PROFIBUS/PROFINET International is also expected to grace one of these seminars.
